Roster of the New York State Fire Tower Forest Fire Observers

Table of Content:

Introduction.....	1
The Roster.....	2
List of the NYS Fire Towers.....	56
February 2009 Fire Tower Inventory.....	59
Fire Tower Location Map.....	60
Number of Fires Spotted Graph.....	60
Historical Notes on Certain Fire Towers....	61

The following roster of the New York State Forest Fire Observers was compiled from the index card payroll file of the Bureau of Forest Fire Control from 1911 through 1972. Although at least half of the fire towers operated beyond 1972 payroll records for that period do not seem to exist and the likelihood that any of these records might be found are remote. For that reason this is an incomplete accounting of all the Observers, but it is the most comprehensive source available.

Dates are provided for the Observers who staffed the fire towers in the Adirondack and Catskill regions beyond 1972 which were obtained from the books by Martin Podskoch; The Catskill Fire Towers; Their History and Lore and The Adirondack Fire Towers; Their History and Lore - Northern and Southern Districts. Yet these records too are incomplete as they are from the recollections of the people interviewed by Mr. Podskoch.

The Bureau of Forest Fire Control operated their fire towers from 1909 up through the end of the 1990 fire season. Even though the fire towers no longer search for forests fires they continue to serve the people of New York by providing a source for outdoor recreation and wilderness education. A function continuously provided by the fire towers as early as 1910.

After the end of the 1970 fire season the state began closing certain fire towers due to redundancy and in an effort to raise money to fund the fledgling wilderness search and rescue program. This was made possible by the creation of the aerial fire detection program in 1969. It was never intended to completely replace the fire towers with these privately owned airplanes, operating under contract, but rather to supplement the closing of certain fire towers by providing aerial surveillance in those areas.

The following is a historical accounting of New York's fire towers based solely on official state records as such some fire towers are listed differently versus their present day name. For example; Bald Mtn near Old Forge is not the official name of this fire tower it will be found listed as Rondaxe Mtn, but there was a Bald Mtn fire tower in Lewis County. Mt Adams, Mt Arab, Mt Beacon and Mt Tremper are named followed by the "Mtn" prefix.

Immediately following the roster is a complete list of each and every fire detection station that was operated by the bureau. The list contains 127 facilities, but not every station operated simultaneously at one time. Some sites were abandoned and four fire towers were relocated. In addition five of these stations were privately owned and operated yet these private fire towers are documented to have worked in conjunction with the bureau's fire tower system. This listing was compiled from the Annual Reports to the New York State Legislature from 1903 through 1965.

A master list of this roster has been made available in the Microsoft Excel 2003 format to the NYS-DEC Historic Preservation Officer in Albany, each Regional Forester, District Supervising Forester and Regional Forest Ranger's office of the NYS-DEC, or by e-mailing Bill Starr at beebe.hill@yahoo.com and please state "Observer Roster" in the subject line.

Fire tower decommissioned at the end of the 1970 fire season.				
Alander Mountain		Taconic State Park under contract with Forest Fire Control		
NAME	RESIDENCE	START SALARY	PERIOD OF SERVICE	
Mervin P. Whitbeck	Copake Falls, NY	\$100.00 month	1928 May 16 - 1928 June 30	
Mervin P. Whitbeck	Copake Falls, NY	\$100.00 month	1929 Mar 16 - 1929 June 30	
Mr. Whitbeck lived in Mt. Washington, Mass., but his salary checks were mailed to Park Hq. in Copake Falls, NY.				
<p>The Alander Mountain is chronicled in the 1928 Annual Report to the NYS Legislature as being erected on the summit of Alander Mountain just barely inside Massachusetts by the Taconic State Park under an easement with the private land owner. The purpose of the fire tower was to watch over park land. In the payroll files the salary of the observer, Mr. Whitbeck, was paid for by the Bureau of Forest Fire Control for the periods noted above. It would be the responsibility of the Taconic State Park, who owned the fire tower, to operate the tower and pay the salary of the observer at other times. This would explain why a standard observer's cabin was also constructed near the fire tower to ensure that the observer would be on duty at the fire tower when he was expected to be on. In 1930 a fire burned over the forest on Alander Mountain, the Bureau of Forest Fire Control had not paid for the observer at all in 1930 explaining why he was not on duty. As a result of his loss the land owner instructed the park to remove the fire tower from his land immediately. The tower was removed by the park in 1930 and put into storage until it was re-erected on Washburn Mountain late in 1932.</p>				

Alma Hill		Allegany County - District 4 - Region 9	
NAME	RESIDENCE	START SALARY	PERIOD OF SERVICE
<p>Fire tower and cabin were constructed in 1950 on private land through an easement with the land owner by the Bureau of Forest Fire Control. FFC never paid a salary for an observer at this station it was staffed occasionally on a need by need basis by the Bureau of Reforestation or by fire wardens.</p>

Ken Kittle	Margaretville, NY	\$2.79 hourly	1973 Apr 19 - 1987 Nov
Tim Hinkley	N/A	N/A	1988

The fire tower was decommissioned at the end of the 1988 fire season.

Bayshore

Suffolk County - District 15 - Region 1

NAME	RESIDENCE	START SALARY	PERIOD OF SERVICE
Mildred H. Spence	Brentwood, NY	\$172.50 month	1948 Apr 16 - 1954 Nov 6
Ronald A. Sommer	Central Islip, NY	\$214.47 month	1955 Apr 16 - 1955 Apr 19
Victor Lavis	Brentwood, NY	\$214.47 month	1955 Apr 17 - 1956 June 27
Charles F. Nichols	Brentwood, NY	\$110.22 bi-weekly	1957 May 3 - 1959 Nov 18

The Bayshore facility closed at the end of the 1959 fire season in conjunction with the 1959 pull out of Forest Fire Control from Long Island. The fire tower was removed by contract in the early 1960s.

Beacon Mountain

Dutchess County - District 14 - Region 3

NAME	RESIDENCE	START SALARY	PERIOD OF SERVICE
Ray W. Hustis	Cold Spring, NY	\$90.20 month	1922 Apr 24 - 1924 June 20
Steel tower erected late in 1931, only occasional fire detection activity between 1925 and 1931.			
George Lamoree	Beacon, NY	\$100.00 month	1932 Mar 15 - 1933 Oct30
Irving Moshier	Beacon, NY	\$100.00 month	1934 Apr 9 - 1935 Oct 20
Andrew Bell	Beacon, NY	\$100.00 month	1935 Oct 20 - 1935 Oct 31
Kenneth Burns	Beacon, NY	\$100.00 month	1936 Apr 4 - 1939 Oct 31
George Ketchum	Beacon, NY	\$100.00 month	1940 Apr 1 - 1971 June 2
Raymond Winchcombe	Pleasant Valley, NY	\$2.79 hourly	1971 June 24 - 1971 Nov 24
Gerald Traver	Poughkeepsie, NY	\$2.79 hourly	1972 Apr 6 - 1972 Nov 1

The fire tower was kept in stand-by condition until the mid 1970s after which it was decommissioned.

Beaver Lake Mountain

Herkimer County - District 8 - Region 6

NAME	RESIDENCE	START SALARY	PERIOD OF SERVICE
J.H. Bintz	Number Four, NY	\$60.00 month	1911 May - 1912 Nov
William G. Bush	Croghan, NY	\$72.00 month	1913 May - 1913 Oct
Peter Thenes	Croghan, NY	\$72.00 month	1914 June 11 - 1914 Nov 10
Walker Saunders	Number Four, NY	\$72.00 month	1915 May 17 - 1915 Oct 31
Meryl Shaw	Number Four, NY	\$72.00 month	1916 May 3 - 1917 Oct 31
Frank Bailey	Petries Corners, NY	\$82.00 month	1918 Apr - 1921 Oct
Fayette Fey	Petries Corners, NY	\$90.20 month	1922 Apr - 1922 Oct
Virgil M. Edgar	Watson, NY	\$90.20 month	1923 May - 1928 July 15
Frank Bailey	Petries Corners, NY	\$100.00 Month	1928 July - 1939 Oct.
Ladette Muncy	Lowville, NY	\$100.00 Month	1940 May 1 - 1941 July 31
James Bailey	Port Leyden, NY	\$100.00 month	1942 Apr 20 - 1942 Apr 22
Roy Fitzgerald	Lowville, NY	\$100.00 month	1942 Apr - 1942 June 24

Due in large part to World War II it had become nearly impossible to keep the Beaver Lake Mtn. facility staffed. With the nearby fire towers at Number Four and Stillwater Mtn the bureau ceased to operate Beaver Lake Mtn in 1942. The fire tower was removed in 1977 by forest rangers.

NAME	RESIDENCE	START SALARY	PERIOD OF SERVICE	
George Collins	Central Islip, NY	90.20 month	1921 Apr - 1921 June 15	
The Oakdale station was never equipped with a standard steel fire tower. It was operated for part of the 1921 fire season and was abandoned by Forest Fire Control at the end of the 1921 fire season.				
Ohmer Mountain		Saratoga County - District 11 - Region 5		
NAME	RESIDENCE	START SALARY	PERIOD OF SERVICE	
N.B. Tennant	Day, NY	\$60.00 month	1912 May - 1914 Nov	
Harvey J. Atherton	Day, NY	\$60.00 month	1915 May 24 - 1915 July 4	
The Ohmer Mtn station was situated on private land. A steel fire was purchased to replace the old wooden fire tower, but a renewed easement with the land owner could not be secured. Therefore the station was abandoned by Forest Fire Control at the end of the 1915 fire season and the wooden tower was removed. The steel fire tower was erected on Hadley Mtn. which began operations in the spring of 1917.

The fire tower was decommissioned in 1971.				
Sand Hill		St. Lawrence County - District 7 - Region 6		
NAME	RESIDENCE	START SALARY	PERIOD OF SERVICE	
Fire tower was removed in the early 1960s.				
Fire tower and cabin were constructed in 1950 Bureau of Forest Fire Control. FFC never paid a salary for an observer at this station it was staffed occasionally on a need by need basis by the Bureau of Reforestation or by fire wardens.				
Slide Mountain		Ulster County - District 13 - Region 3		
NAME	RESIDENCE	START SALARY	PERIOD OF SERVICE	
Eben Chase	Slide Mtn, NY	\$62.00 month	1912 May 18 - 1912 Nov 15	
Due to poor visibility the Slide Mtn facility was abandoned by Forest Fire Control after the 1912 season and the wooden fire tower was removed. In 1934 a standard steel fire tower was erected on Slide Mtn., but not by Forest Fire Control and it was never used for fire detection.

1. Shaded text denotes a location within the boundaries of the Adirondack Forest Preserve.

2. Slide Mtn.: This site was abandoned by Forest Fire Control (FFC) in 1915 due to poor visibility conditions from the summit. In 1934 an Aermotor LS-40 fire tower was erected on the summit. This tower was not erected by FFC nor was it ever used for fire detection by FFC. Therefore this steel fire tower is not recognized in this historical account.

1. AM = Aermotor fire towers...ID = International Derrick fire towers. No "ID" fire tower was ever erected in the Adirondacks.
2. Fire towers on private land are privately owned unless otherwise noted – **DO NOT TRESSPASS** in order to visit these fire towers.
3. Fire towers noted as "Radio Equip" indicates this equipment is mounted on the fire tower and closed to public access.
4. Fire tower heights are measured to the floor of the tower cab as determined by factory blue prints. The concrete footings of a fire tower are not calculated in tower height.
5. Some fire tower heights determined by photographic interpretation by Capt Paul Hartmann, NYS Forest Rangers (ret).
6. Central Islip, Clock and Oakdale locations were steel structures of sorts, but not actual fire towers. Used temporarily by FFC until a fire tower was erected in each of their areas to replace them.
7. Shaded text denotes a location within the boundaries of the Adirondack Forest Preserve.
8. Source of this information; Annual Reports to the NYS Legislature of the NYS Forest, Fish & Game Commission – the NYS Conservation Commission and the NYS Conservation Department 1903 – 1965.

Facts and Notes about Certain Fire Towers

Alander Mtn	See entry for Beebe Hill.
Alma Hill	This fire tower was among the 10 fire towers purchased through the fire tower capital construction fund provided by the NYS Legislature in 1950. The fire tower never operated on a full-time basis it was a secondary facility that was operated by fire wardens and the Bureau of Reforestation and fire wardens on a need by need basis.
Arab Mtn.	The tower and Observer cabin has been fully restored by the “Friends of Mt. Arab” and is open to the public. This facility is registered on the National Register of Historic Places, and the National Historic Lookout Register.
Azure Mtn.	This tower has been fully restored by the “Azure Mountain Friends” and is open to the public. The tower is registered on the National Register of Historic Places.
Bald Mtn.	This facility is not to be confused with the Bald Mtn. near Old Forge, N.Y. Established in 1911 the Bald Mtn. near Old Forge was established in 1912. Two Bald mountains could not exist as fire towers so the name Rondaxe Mtn. was given to the Bald Mtn. near Old Forge, taking the name from the adjacent Rondaxe Lake, a fact that has never rested well with the Old Forge community. Ownership of the Bald Mtn. facility was transferred to the land owner around 1975 since the station was closed and would not re-open. The Diamond Match Co., the land owner, did not want to encourage the public to continue visiting the tower so they cut two of the tower’s legs and it was pulled over. The tower now rests where it fell in 1975.
Balsam Lake Mtn.	This facility is the oldest documented forest fire observatory within New York State. In 1885 the land was owned by the Balsam Lake Club, and fire was a serious concern to large land owners such as the club. They erected a tower made from timbers found on the mountain top and paid a man to staff the tower during dry conditions. This tower was struck by lightning and burned down about 1901. The club built a similar wood tower on the mountain summit in 1905. When the state began their fire tower system in 1909 operation of the Balsam Lake Mtn. facility was transferred to the state. The steel fire tower and cabin has been fully restored by the Friends of the Balsam Lake Fire Tower and is open to the public. It is also registered on the National Register of Historic Places, and the National Historic Lookout Register.
Beacon Mtn.	This station appears in the 1922 and 1924 Annual Reports to the Legislature as South Beacon Mtn. which was first established with no tower of any kind. During this time when the Observer spotted a fire he had to walk a quarter mile down the foot trail to a tree where the telephone line ended. He then had to climb that tree to dial out on a temporary type telephone. This facility was upgraded to a steel fire tower in 1931. The fire tower is under restoration by the Friends of Mt Beacon.
Beaver Lake Mtn.	This is one of the oldest forest fire observatories within the state established in 1910 with a wood tower then upgraded to a steel tower in 1919. This facility operated continuously until World War Two. During the war turn-over rate of Observers was unusually high due to the remote location. The state temporarily closed the tower in 1942, but with the nearby Number Four and Stillwater Mtn fire towers there was no need to re-open the Beaver Lake Mtn facility. It stood idle until 1977 when a crew of Forest Rangers led by District Forest Ranger Bob Bailey dismantled the tower, and had the pieces were flown out by helicopter.
Beebe Hill	This is the third site that this fire tower has stood upon. In 1928 the Taconic State Park Commission erected the tower on Alander Mtn., just barely within the Commonwealth of Massachusetts, for the sole purpose of detecting fires on park land. For 3 months in 1928 and 1929 FFC paid the salary of the observer at Alander. In 1930 the forest at Alander Mtn. burned and the land owner asked for the tower to be removed. The tower was dismantled by Park staff and stored at a High Falls farm. In 1932, through an easement, the Park re-erected the tower on the privately owned Washburn Mtn. Operation of the tower was turned over to Forest Fire Control in 1932 and was actively operated there until 1964. In November of 1964 the tower was dismantled by Forest Rangers and transported by helicopter to the Beebe Hill site and re-erected. The tower was actively operated at Beebe Hill from April 1965 until it was closed in 1987. The facility is under restoration by the FFLA-NY. This tower is registered on the National Historic Lookout Register.

Belleayre Mtn.	This facility was established circa 1905 by a gentleman who owned a great deal of land on and near the mountain. Using an abandoned windmill frame made of steel he erected a 65 foot open platform tower on the mountain summit and the tower was staffed by members of the landowner's fire fighting crew. The operation of the facility was turned over to the state in 1909 when the State's fire tower system began. This wind mill open platform tower was replaced in 1930 with a 73 foot Aermotor model LS-40 fire tower.
Berry Hill	This tower now supports two-way radio equipment for law enforcement, and is closed to the public. The facility is also registered on the National Historic Lookout Register.
Black Mtn	Today this tower in no way resembles a fire tower. The structure has been drastically altered by the State Police to support, and contain two-way radio equipment and the tower is closed to the public. Scratched in the open rocks just north of the tower are the words; 'R. Rogers 1763' this is Robert Rogers of the colonial era "Rogers' Rangers". The marking has been determined as authentic by the NYS Department of Education.
Blue Mtn.	The model 1941 Observers' cabin here is the second cabin of this style on the mountain. The first, built in 1948, was struck by lightning and burned to the ground. The tower has been fully restored, but the restoration group has dissolved. The tower is registered on the National Register of Historic Places, and the National Historic Lookout Register.
Brookfield	This tower was first erected on a hill quite near the Chenango Lake State Park in 1935 and was actively operated by Forest Fire Control until the tower was dismantled and re-erected at the Brookfield site in 1948. This fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November.
Buck Mtn.	This fire tower was one of the two that was erected, owned, and operated by Whitney Industries of Long Lake. The company employed a man who was a dog handler for dog sledding and the pieces of the tower were hauled up the mountain by his dog team. The parcel where the tower stands has been sold to the International Paper Company, and still remains private land.
Camp Upton	Operation of the Camp Upton fire tower ceased at the end of the 1953 fire season. It was removed by the Brookhaven National Lab, where it stood, in 1955 or 1956.
Castor Hill	This fire tower was erected in 1927 on the lands of the 'Mad River Club' by agreement. Around 1963 the then President of the club began questioning why a state fire tower stood on club land. Apparently the agreement of 1927 was not that binding therefore a crew of Forest Rangers dismantled the tower and re-erected it on the opposite side of an adjacent road which is on state land. It could be that the land where the tower was moved to was not under state ownership in 1927, or most likely the tower would not have been built on club lands.
Chenango Lake	Also see entry for Brookfield. The Chenango Lake facility ceased operations in 1946 and the fire tower was dismantled and moved to the Brookfield site in 1948. While at Chenango Lake the fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November.
Clock, Central Islip and Oakdale	For one year each these stations appear in the Annual Reports to the Legislature as reporting stations. Each was actually an elevated open platform used for spotting fires. Each of these stations operated for only one year before being abandoned by FFC.
Cornell Hill	From 1924 through 1935 Round Lake native Noah LaCasse served as the Forest Fire Observer at this tower. In 1901 Mr. LaCasse was a guide in the party of Vice President Theodore Roosevelt at the time he was hiking to Mt. Marcy when President McKinley was assassinated in Buffalo, N.Y. The Luther Forest Corp. will have this fire tower dismantled and moved to the site of the former Boy Scout Camp Saratoga at the Wilton Wildlife Refuge in Wilton, NY sometime in 2008.

Dickinson Hill	The Friends of Grafton Lakes State Park has applied to adopt and restore this fire tower. Currently the facility is owned by the State Police who had two-way radio equipment mounted on the fire tower. This radio equipment has since been moved to a new monopole near the fire tower. The group has been working to have the State Police transfer ownership of the land to the adjacent Grafton Lakes State Park so that they may begin restoring the fire tower. With the current 'Homeland Security' issues this transfer has been delayed. The tower is registered on the National Historic Lookout Register, and under nomination to the National Register of Historic Places.
Dix Hill	The Dix Hill facility ceased operations in 1947. The fire tower was dismantled in 1948 or 1949 and the pieces were shipped to the Bureau of Forest Fire Control shop at the Saranac Inn where the pieces were kept in storage for spare parts.
Dunn Brook Mtn.	This facility was established in 1911 with a wood tower. Due to the remote location of the facility, and inactivity the site was abandoned in 1919 and the wood tower of rough timbers was removed. The Goodnow Mtn. facility, opened in 1922, replaced the closing of the Dunn Brook Mtn. station.
Erwin	This fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November
Gallis Hill	This tower was dismantled and re-erected at Overlook Mtn. 1950.
Georgetown	In 1940 this station appears in the Annual Report to the Legislature in a picture labeled as Morrow Mtn. The tower was indeed erected on Morrow Mtn., but the name was changed to Georgetown matching with the Georgetown State Forest where the site is located. This fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November. The tower has been removed.
Goodnow Mtn.	This site is on land owned by the State University of New York, College of Environmental Science and Forestry and is attached to the Huntington Forest in Newcomb. This land was originally logged by the Huntington's and an old two stall horse barn, and concrete slab of another building for the logging operations are found along the foot trail to the fire tower. The tower has been restored by SUNY-ESF, and is open to the public. The station is registered on the National Register of Historic Places, and the National Historic Lookout Register.
Gore Mtn.	The tower now supports two-way radio equipment and is closed to the public. This tower blew over in a hurricane that hit the Adirondacks in October of 1919. The tower was re-erected and operating in the spring of 1920.
Graham Mtn.	This tower was originally located at Pocatello Mtn. In 1948 the tower was dismantled and re-erected at the Graham Mtn. site. The Graham Mtn. station is registered on the National Historic Lookout Register.
Hadley Mtn.	This tower is a 40 foot Aermotor model LL-25, one of the first ten steel towers introduced in the state in 1916. The tower at this site was purchased to replace the wood tower on Ohmer Mtn., but an agreement with the landowner at Ohmer Mtn. could not be secured. Therefore the Hadley Mtn. site was chosen to replace the abandoned Ohmer station. Construction of the tower on Hadley began late in 1916, but was not completed until early in 1917. This tower also blew over in the same October 1919 hurricane that struck Gore Mtn. The tower was re-erected and back in operation early in 1920 and guy wires were installed on the tower at this time. The station has been restored by the Hadley Fire Tower Committee and is open to the public. The facility is registered on the National Register of Historic Places and the National Historic Lookout Register.
Hartzfelt Hill	Locally known as Birdsall Hill. This fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November. Although at different times this fire tower did operate for the entire fire season.

Hooker Hill	This fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November. Former Ampersand Mtn. and Utsayantha Mtn. Forest Fire Observer Al Jordan purchased this fire tower by sealed bid. He dismantled the tower and had plans to re-erect it on his farm near Hooker Hill. Once he was informed how much concrete he would need as footings to meet building codes the idea abandoned. For years the pieces of the tower laid in a field until 2001 when Mr. Jordan gave the tower to Fire Tower book author Marty Podskoch.
Hunter Mtn.	This station is one of the first facilities operated by Forest Fire Control. Established in 1909 with a tower made of timbers found at the mountain top the station was established at the 4,000 foot elevation of the mountain. 40 feet shy of the true summit. In 1917 the steel tower was erected next to the wood tower. It remained at the 4,000 foot elevation until 1950 when the tower was dismantled and re-erected at the current location on the summit at 4,040 feet. The tower has been fully restored by the DEC and volunteers and is open to the public. The facility is registered on the National Register of Historic Places and the National Historic Lookout register.
Ingraham Hill	This tower was sold in the early 1970s to a company that has removed the walls of the tower cab, and mounted two-way radio antennas on the tower and cab floor. The fire tower stands today, but only resembles a skeleton of what used to be a fire tower. The site is posted private land and closed to the public.
Jackie Jones Mtn.	Erected in 1928 by the Palisades Interstate Park Commission who operated the facility until 1931. From that time the facility was operated by Forest Fire Control until it closed in the 1970s. It is registered on the National Historic Lookout Register.
Kane Mtn.	This facility has been adopted by the Canada Lake Protective Association who in cooperation with the NYS-DEC has restored the tower and maintains the site. The site is registered on the National Register of Historic Places, and the National Historic Lookout Register.
Kempshall and West	With pieces from both of these fire towers one fire tower has been re-erected at the Essex County Historical Society building in Elizabethtown, N.Y.
Kings Park	The Kings Park fire tower replaced the closing of the Dix Hill fire tower. Operations at Kings Park ceased in 1959 in conjunction with the 1959 pull out of the Bureau of Forest Fire Control from Long Island. The fire tower was removed under contract in the early 1960s.
Leonard Hill	This tower was originally erected at the Gilbert Lake State Park by the C.C.C. and operated by the Park to protect park lands, but in 1948 the tower was dismantled and re-erected at the Leonard Hill site. The Leonard Hill site is actually Hubbard Hill, but by a typographic error the U.S.G.S. reversed the names on the two adjacent hills and Leonard became Hubbard and vice versa. The error has never been reversed. A group has formed to restore this fire tower with FFLA-NY assistance, but work is delayed until the state's engineer completes an inspection of the structure.
Loon Lake Mtn.	During the winter of 1927-1928 this tower blew down. The tower was re-erected in the early spring and was back in operation for the 1928 fire season. In 2010 access to the summit will be open to the public via the old foot trail by way of a conservation easement. Efforts are on going to form a restoration group.
Makomis Mtn.	The pieces of this tower are now owned by Mr. George Barber of Plattsburg, N.Y. Mr. Barber has plans to re-erect the tower on an escarpment located just north of the City of Plattsburg.
McCarty Hill	Locally known as Irish Hill. This fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November. Although at different times the fire tower did operated for the entire fire season.
Meenagha Mtn.	This fire tower is one of the privately built fire towers within the Adirondack Forest Preserve. The Adirondack – Florida School was operated on Rainbow Lake in the 1920s and 1930s. Two students drowned while swimming in Rainbow Lake and the tower was erected, on school property, as a memorial for the two boys. Forest Fire Control made arrangements with the school to operate this tower as a secondary station in periods of dry and dangerous conditions. This land has since changed hands, but is still under private ownership and is not open to the public.

Moose River Mtn.	This station was originally established with a tower made of mountain top timbers in 1912 near the hamlet of Lyonsdale in Lewis County. When the steel tower was purchased for this facility Forest Fire Control picked a site with higher visibility to erect the steel tower upon at the present Moose River Mtn. in the Town of Webb, Herkimer County. Once the steel tower was erected the Lyonsdale site was abandoned, and the old wood tower was removed.
Mt. Electra	This tower was privately built and operated by the Webb family at their Nehasane Park at Lake Lila. It first appears in the 1920 Annual Report to the Legislature as "Rock Lake Mtn." Although Dr. Webb changed the name to "Electra" in honor of his wife. As shown in Forest Fire Control payroll records the estate was paid the salary for their Observer for the months of May, June and September from Federal Fire Control funds by the State until 1944. Mt. Electra is a remote site and was the only fire tower with such a commanding view along the Lake Placid Branch of the N.Y. Central Rail Road. Many of the local people still know it today as the "Partlow Tower" because the easiest access to the tower was via the old "Partlow Station" along the railroad. In the 1990s most of Nehasane Park was sold to the State of New York and incorporated into the Adirondack Forest Preserve. Mt. Electra eventually fell within the boundaries of the "Five Ponds Wilderness Area" and as such became a "Non-Conforming Structure". Forest Rangers were dispatched to remove the tower. The tower was un-bolted from the footings and pulled over with the use of a "Come-A-Long", and the tower rests today on the spot where it fell.
Mt. Morris	The station was established in June of 1909 with no tower. The open summit was determined not to need a wood tower so a small tent shelter served as the first observatory. The significance of the June 1909 date determines that Mt. Morris was the first forest fire observatory to be operated in the Adirondack Forest Preserve. The mountain and tower are privately owned and the tower now supports two-way commercial radio equipment. Mt. Morris was equipped with a 22 foot Aermotor model LS-40 tower one of only four in the state. Today this is the only 22 foot fire tower remaining in place on a mountain. The only other remaining 22 foot tower, from Whiteface Mtn., is on display at the Adirondack Museum in Blue Mountain Lake, N.Y.
New Boston	This tower was dismantled and stored at the DEC facility in Harrisville, N.Y. in 1982. The tower is now on loan to the Thompson Park Zoo of Watertown, N.Y. where a portion of the tower has been re-erected for display.
Ninham Mtn.	Locally known as Smalley Mtn. The tower has been restored by volunteers with the Town of Kent CAC and is opened to the public. The tower is registered on the National Historic Lookout Register. By typographical error the station name was changed from Mt. Nimham to Ninham. Nimham was in honor of the Colonial era Chief of the local Wappinger Indian Tribe.
Number Four:	Erected, owned and operated by the Fisher Forestry & Realty Co. in 1928, the facility was turned over to state operation in 1945. This is actually an Aermotor model LE-40 originally equipped with 12" wide ladders between the landings of the tower. When the tower became state operated stair risers were installed between the landings, and the ladders removed. The only difference between a model LE-40 and a model LS-40 is the ladders instead of stairs. The tower was dismantled and stored at the DEC office in Lowville, N.Y. and in 1984-85 and the Observers' cabin was re-built at the Nicks Lake State Campsite. Today the upper three sections of the tower, 22 feet, has been re-erected at the DEC Demonstration area in Lowville.
Oakdale	See entry for Clock.
Ohmer Mtn.	See entry for Hadley Mtn.
Overlook Mtn.	See entry for Gallis Hill. The Overlook tower has been restored by the Overlook Fire Tower Stewards and is open to the public. The facility is registered on the National Historic Lookout Register.
Padlock Hill	This fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November. Although at different times this fire tower did operate for the entire fire season. The tower was sold by sealed bid to the landowner where the site is located in 1977. In 1984 this gentleman donated the tower to the New York State Fair in Syracuse, N.Y. In 1985 Forest Rangers from Region 7 dismantled the tower and re-erected it at the D.E.C. facility at the State fairgrounds in Syracuse.

- Page Pond Hill This fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November. Although at different times this fire tower did operate for the entire fire season. Ownership of this facility was transferred to the land owner of the site, the Indian Hills Girl Scout Council, in 1992. The tower is closed to the public. In 2007 the FFLA-NY began restoration work on the cabin and fire tower.
- Petersburg Mtn. In 1953 a 6 year old boy, who was visiting the tower with his family, fell off the landing halfway up the tower to his death. Due to this incident the “Turkey Wire” that surrounds the landings and stairs of a fire tower today was ordered to be installed on all Forest Fire Control fire towers. In 1972 ownership of this tower was transferred to the County of Schoharie who removed the tower cab and extended the height of the tower by continuing the steel structuring. The tower remained this way supporting two-way law enforcement radio equipment until 1999. At that time the fire tower was removed and a new monopole was erected to support the two-way radio equipment. The tower was given to a man from Esperence, N.Y. who kept the pieces at his home. In 2003 Mr. Barry Knight of West Hurley, N.Y. secured ownership of the tower pieces and has erected the bottom two sections of the fire tower on an escarpment that he owns near West Hurley, N.Y.
- Pharaoh Mtn. In the 1980s Schroon Lake, N.Y. teenager Melanie Crear led a fight to prevent this tower from being dismantled and removed due to it being located on “Wilderness Area” land as a “Non-Conforming Structure”. Her efforts led to an appointment with Gov. Mario Cuomo who assured her that the fire tower will remain on Pharaoh. The tower was vandalized in such a way that in high winds the tower blew over onto the ground. With the tower on the ground no hope was present that it would ever be re-erected. Soon after the tower was removed from the mountain by DEC helicopter. A criminal investigation was unable to lead to an arrest of any person responsible for this act.
- Pillsbury Mtn The station was first established in 1918 by the land owner of the time, the Champlain Realty Company. The facility was equipped with a wood tower, made from mountain top timbers, and a log cabin was built to house an observer. The station was operated by the company in conjunction with Forest Fire Control as a secondary station during periods of dry weather. In 1924 the company purchased the steel tower, and had it erected, before the station was turned over to Forest Fire Control. Today the tower houses and supports a solar powered two-way radio repeater, and the cab is closed to the public. Excellent views are still possible from the top landing of the fire tower. This is the only fire tower in which a person can see West Canada Lakes. The facility has been adopted by a local chapter of the FFLA-NY for restoration.
- Pocatello Mtn. See entry for Graham Mtn.
- Poke-O-Moonshine In 1918 Forest Fire Control tested the “Osborne Fire Finder” in this fire tower. With the fire finder immediately proving its worth the bureau began making “Panoramic Circular Maps” with the plotting instrument on the fire finder for each of the state’s fire towers. A simplified version of the “Osborne” was developed and installed at each fire tower beginning in 1919. This tower has been fully restored by the Friends of Poke-O-Moonshine and is open to the public. The tower is listed on the National Register of Historic Places, and the National Historic Lookout Register.
- Prattsburg This fire tower operated for 3 months out of the year in April, May and October, but during extremely high fire danger operation was extended into June and November. Although at different times this fire tower did operate for the entire fire season.
- Rock Mtn. This fire tower was created from the frame of an abandoned windmill and was erected on the site in 1922 by the Fisher Forestry and Realty Company which was owned and operated by Clarence Fisher of Lyons Falls, NY. Very little is known about the Rock Mtn. fire tower except from an article in “The Journal and Republican” newspaper of Lowville, NY on May 11, 1922. It was stated that the facility would be operated by the company and would supplement and report fire sightings to the state operated fire towers on Beaver Lake Mtn and Stillwater Mtn. No other records appear beyond this 1922 newspaper article, but it is strongly believed that the Rock Mtn facility was abandoned in 1928 after the company erected and began operating their Aermotor fire tower at Number Four.
- Rondaxe Mtn. Also see the entry for Bald Mtn. This tower has been adopted through the “Adopt – A – Natural Resource” program offered by the NYS-DEC by the “Friends of Bald Mtn.” who have fully restored the fire tower for public enjoyment. This tower is listed on the National Register of Historic Places, and the National Historic Lookout Register.

Sand Hill	This station had a very short life span. The fire tower was among the 10 fire towers purchased through the fire tower capital construction fund provided by the NYS Legislature in 1950. The fire tower never operated on a full-time basis it was a secondary facility that was operated by fire wardens and the Bureau of Reforestation and fire wardens on a need by need basis. 1957 was the last entry in the Annual Reports to the Legislature for this tower. The station was officially closed in 1959, and was removed by Forest Rangers about 1961.
Slide Mtn.	Established in 1912 with a wood tower, made of mountain top timbers, the station operated for only one year. In 1915 the facility was abandoned due to persistent poor visibility conditions and the tower was removed. The opening of the Tremper Mtn. station in 1917 replaced the closing of Slide Mtn. In 1934 an Aermotor model LS-40 fire tower was erected on Slide Mtn. but it was not built by Forest Fire Control nor was it operated as a forest fire detection station. It is not clear why the Conservation Department erected this tower and state records do not exist recording the length of time that this tower stood on the mountain.
Snowy Mtn.	The original steel tower was an Aermotor model LS-40 22 foot tower. Due to the growth of trees around the tower 20 additional feet in height was placed on this tower in 1933. The 20 foot extension was purchased from Aermotor and the 22 foot tower was dismantled and after setting the new footings the tower was re-erected with the extra 20 feet. This is the only 42 foot model LS-40 tower in the state. The tower has been fully restored by the NYS-DEC.
Sterling Mtn.	This fire tower is now under the control of the Bear Mountain State Park Fire Control Bureau. The facility has been fully restored by the FFLA. Until the end of 2007 the facility operated as an active forest fire detection site by volunteers. Sterling Mtn. is registered on the National Historic Lookout Register.
Sugar Hill	Prior to 1951 the fire tower was operated part-time on a need by need basis by the Bureau of Reforestation and by assignment from the District Forest Ranger by NYS Fire Wardens.
Summit Hill	Originally established in 1926 by the Allegany State Park control of the facility was turned over to Forest Fire Control in 1931. The ownership of the facility has reverted back to the Park and the Allegany State Park Historical Society has restored the tower. The tower is listed on the National Historic Lookout Register and is open to the public.
Swancott Hill	This was the tallest fire tower within New York State. Equipped with an International Derrick Model 1933 the tower measured 99' 9" to the floor of the cab. The fire tower was dismantled and removed from the site in the mid 1970s.
T – Lake Mtn.	This fire tower was closed after the 1970 season and was placed on the "Stand-by" roster. In 1976 the facility was placed on the "Surplus Property" list as it was deemed a "Non-Conforming" structure for being within the boundaries of the "West Canada Lakes Wilderness Area". In 1977 U.S. Army engineers were allowed to test shaped explosive charges on this fire tower which brought the tower crashing down. Within a week the sections of the fire tower were flown out by a heavy capacity helicopter. Residents of Piseco Lake made several unsuccessful attempts and pleas to NYS-DEC Commissioner Peter Berle to obtain the fire tower for use as an air traffic control tower for the Piseco Lake airport.
Telescope Hill	This facility is the first forest fire detection station to have been established outside of the two "Forest Preserves" in New York State established in 1918 and immediately followed by the Flanders Hill station. As was the case during World War Two all of New York's fire towers pulled double duty as forest fire detection stations and aircraft spotting and monitoring stations. The Long Island fire towers also served as spotting stations for submarine and war boat activity along the approach to New York Harbor. The Telescope Hill tower actually had an additional cab placed immediately below the original cab on the tower. The upper cab housed "Civil Defense" personnel, and the lower cab housed the "Forest Fire Observer". On three separate occasions "Nazi U-Boats" were spotted from this fire tower, and on one occasion the spotting of a "U-Boat" by the Telescope Hill fire tower actually led to the capture of that "U-Boat".

Tomany Mtn.	This station operated until the end of the 1970 fire season. From then on the facility remained on the "Stand-By" list until it was declared "Surplus Property" in 1976. In August of 1986 the DEC removed the fire tower, in a statement it was said the fire tower fell into a dangerous state of disrepair due to inactivity. The author visited Tomany Mtn in the spring of 1986 and found the cabin and tower to be in remarkably good condition. This station was not widely known about, except by residents of the area, and as such did not suffer from vandalism as was the case at most of the fire towers. All that remains today are heaps of bent and mangled fire tower steel in the woods surrounding the summit.
Tooley Pond Mtn.	This fire tower was dismantled and removed by the NYS Forest Ranger School at Wanakena in 1972. The tower has since been re-erected on their campus at Cathedral Rock.
Twadell Point	The first tower on this site was also a converted steel wind mill frame that had been abandoned similar to the first Belleayre Mtn tower it too was still an open platform tower.
Wakely Mtn.	In 2001 Ann Spaziano-MacBride and Bill Starr completed field data gathering of this facility so that Indian Lake Town Historian Bill Zullo could nominate the station to the National Register of Historic Places. The Wakely Mtn. station was placed on the National Register in 2003. A local chapter of the FFLA-NY has submitted an application to the NYS-DEC to formerly adopt and restore the cabin and fire tower.
Washburn Mtn.	See entry for Beebe Hill.
West Mtn.	See entry for Kempshall Mtn.
Whites Hill	Prior to 1970 the Whites Hill fire tower was operated on a part-time need by need basis by the Bureau of Reforestation and by assignment from the District Forest Ranger by NYS Fire Wardens. The fire tower was decommissioned at the end of the 1970 fire season.
